Unique 2 Bed, 2 Bath Home with Apartment too!
506 E. Neil Armstrong Street, Tishomingo, Oklahoma

\$112,500

Unique home that has so much charm!

Built in 1930 this home has 2 bedrooms, 2 bath and 1,677 square feet. The formal living is big and spacious, as is the formal dining. Nice entry-way/foyer that has a stained glass transom that shows the character of this home as soon as you enter.

1st bedroom is off the formal living and is a large bedroom with huge walk-in closet plus another single closet that could also be used as a pantry or extra storage since it is off the kitchen. The bathroom off this bedroom is lovely with tub and lots of storage in the pretty cabinets. Nice tile as well.

The 2nd bedroom is spacious also and has its own bathroom with shower and Pella windows across almost one whole wall.

The kitchen has a big built-in hutch and a beautiful antique stove that is in working order! The separate laundry room is HUGE with a long countertop and sink.

You will love the beautiful molding throughout, the charming shutter doors, the high ceilings and ceiling-to-floor windows that give the formal living & dining a grand feel.

The large carport even adds charm with the gray rock and there is a shop on the back of the carport too.

A big bonus is the separate, detached brick apartment with bathroom and storage building, plus there is a cellar!

The home has a newer central heat & air unit. The home, carport, shop and apartment have brand new roofs!

If that's not enough, all of it sits on a pretty corner lot and has a beautiful yard with wisteria, pecan trees, peach tree, magnolia tree and grape vines.
